MECATECH

THE AUTOMATIC POLISHING MACHINE RANGE BY PRESI

User-friendly, reliable and robust, the new MECATECH range of automatic polishing machines allows both manual and automatic use. The machines are equipped with platens from Ø200 to 300 mm and have a motor power from 750W to 1500W.

-  **POWERFUL**
-  **ROBUST**
-  **RELIABLE**

Easy maintenance

- Removable over-bowl easy to clean.
- The tank incorporates an anti-splash device that prevents any projection

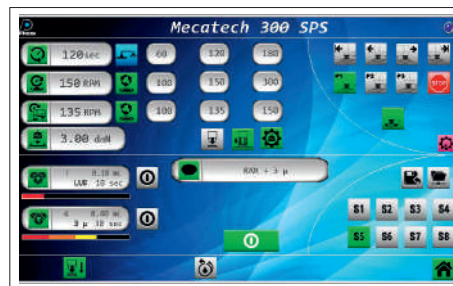

Large color touchscreen

- 7" TFT LCD color display, 16/9
- Ergonomic and intuitive user interface
- **Many features** : speed and direction of rotation (head and platen), sprinkling, drying, stage duration, applied force, management of Distritech 5.1 and the 2 tanks integrated

Programming and memorization

- Easy creation and modification of polishing methods
- Perfect reproducibility of methods
- Password protection (4 levels)
- A USB connection makes it possible to save the integrity of the registered polishing methods and ensures the evolution of the material.

Durability

The body and the composite tank exclude any oxidation. It allows a better shock resistance

Emergency stop button

Convenient and quick access to immediately stop its operation.

LED lighting

Removes shadow areas under the polishing head giving the user better visual control during operation.

Lubrication

2 tanks with peristaltic pump allow the supply of lubricants or abrasives for a precise dosing.

Polishing head

- Powerful motor gearing driven by a frequency inverter
- Automatic polishing head locking when the cycle starts
- Lateral shifting of the head to completely release the polishing platen and work in manual mode (except for the 300 SPS model)
- Programmable material removal in central pressure

Optimum polishing quality

A proportional electronic valve enables the air pressure to be measured and stabilised at a precise value. The force applied to the samples is perfectly constant and reproducibility is guaranteed.

Motor with frequency inverter

- Constant torque and speed whatever the applied load
- Precise speed variation
- Gives exceptional power to the head and the platen
- Progressive acceleration and immediate stop
- 2 directions of rotation (head and platen)

IMAGINE YOUR MACHINE TAILOR-MADE

WITH THE COLOR OF YOUR CHOICE !

Opt for a colour of the hood in the RAL color of your choice

ROBUSTNESS AND CHARACTER

With its affirmed style and edged lines, this new range is distinguished by its design with an easily recognizable sleek and refined carbon look.

MECATECH RANGE

PLATEN DIAMETERS : 200 to 250 mm

MECATECH 250 SPI

1 platen | 4 pistons
Individual pressure

MECATECH 250 SPC

1 platen | 6 pistons
Central and individual pressure

MECATECH 250 DPC

2 platens | 6 pistons
Central and individual pressure

PLATEN DIAMETERS : 250 to 300 mm

MECATECH 300 SPC

1 platen | 6 pistons
Central and individual pressure

MECATECH 300 SPS

1 platen | 8 pistons
Central and individual pressure

SWEEPING FUNCTION

This function optimizes the use of consumables and improves samples flatness.

Productivity is improved by increasing the capacity of the polishing head from 6 to 8 samples.

OPTIONAL

MECAPROTECT

This protection hood meets the most stringent safety requirements. It perfectly isolates the machine from the operator. The connection between the machine and the hood prevents the MECATECH from working when the hood is open.

MECAPROTECT 250 | Ref. 67915

MECAPROTECT 300 | Ref. 67945

DISTRITECH 5.1^{*} | Ref. 67890

Abrasive suspensions dispenser device.

- 5 bottles of 500 cc
- Each abrasive suspension dispenser is managed by the machine
- Each bottle has its own distribution circuit (no risk of pollution)

- Colloidal silica distribution with automatic rinsing function (no risk of crystallisation)

- LED illuminated display indicates the bottle in operation

^{*} Compatible with the entire MECATECH range
